Project Title: An Incomplete List of Unusual Deaths

My intention is for this project to be a multi-page website with simple button-based navigation to take the viewer to the different categories. The categories will outline different time frames, and inside each page will be a list of different strange deaths that happened during that time period. In order to keep imagery consistent, I am planning on drawing my own.

- **Home Page/Introduction:** This will include a site overview and big, simple buttons to take the viewer to the different pages. (Also a content warning.)

- **Antiquity:** Draco of Athens, Aeschylus, Qin Shi Huang, Eleazar Avaran, Valentinian I

- **The Middle Ages:** Basil I, Al-Musta'sim, Martin of Aragon

- **The Renaissance:** George Plantagenet, Duke of Clarence; Victims of the 1518 Dancing Plague; Hans Staininger

- **19th & 20th Century:** Mathilda of Austria, Empress Elisabeth of Austria, Thornton Jones, Mary Reeser, Gareth Jones
